## Work or Play

—In—  
**Real  
Comfort**

"The rarest day in June lacks something—if you aren't dressed for it."

—Aunt Mary.

It makes no difference whether it is a June day or a day in December—you are not at your best unless comfortably—and stylishly—dressed.

### Mina Taylor Dresses

Are easy to work in—and just as easy to play in. They make house work cool and comfortable—and they are just as satisfactory on a hot summer afternoon or a bleak day in the spring. Dainty and smart in style, they settle the vexed question of what to wear at home—how always to be well dressed and comfortable—and thrifty, too. And there is always that happy feeling that they will "do up" perfectly, and be as bright and fresh as ever. Is your dress problem bothering you? Settle it with a Mina Taylor.

Prices range from \$1.50 to \$5

### MORE ARRESTS OF AUTOMOBILE DRIVERS

The police, last night, made five arrests for violations of automobile laws—four for failure to have lights. Probably all who were arrested this morning that it was his intention to strictly enforce the law relative to automobile ordinance violations, but hoped owners would make an effort to comply with the law.

A War Savings Society is a War Club and is essential for the promotion of thrift and savings as a fashionable war job was for a while.

**Attention! Home Guard.**  
All members of the Home Guard, who expect to continue in the service are requested to meet Monday evening for the purpose of being measured for uniforms. It is important that all uniforms be ordered at the same time. So do not fail to come out Monday evening. 5-25-2t

**LOST—Kit of Dodge automobile tools. Please return to W. C. Duncan. 5-25-2t**

### Build Now---Or Wait Ten Years

If you contemplate building a home any time soon, you had better DO IT NOW, because building material, though now somewhat higher than two years ago, will advance to still higher levels when the war is over. At that time half of the world will have to be rebuilt and material will be in much greater demand for many years. BUILD NOW, while you can get the stuff. We'll get the money for you. Investigate our easy building methods.

**MONEY TO LOAN FOR HOME BUILDING**

or to pay off mortgage or remodel your home.

### INSURANCE

You had better take out a policy on your buildings—it's too late after the fire or tornado hits you.

## MEXICO AND CUBA NEAR WAR; GRAVE CRISIS IMPENDING

**RUMORED THAT DIPLOMATIC RELATIONS HAS BEEN SEVERED.**

(By the Associated Press)

Mexico City, May 25.—Mexico has severed diplomatic relations with Cuba. The rupture was learned of late today after confirming the report that the Mexican Charge d' Affairs at Havana and Cuban Minister here had been recalled from respective posts. The recall of the Mexican Minister as explained officially was due to the fact that because of the war, in which Cuba is involved, that government had been obliged to dictate measures affecting the Mexico government's interests in many instances.

Havana, Cuba, May 25.—The report that Mexico had severed diplomatic relations with Cuba could not be confirmed here early today. The Mexican Charge d' Affaires left Havana yesterday, for Mexico City, but visited President Meno before leaving. Several days ago rumors were current that relations with Mexico were strained but the message of May 20th from President Carranza felicitating Cuba on the anniversary of her independence is thought to have relieved the situation.

Washington, May 25.—The State Department has received information from its own source that Mexico's diplomatic representative at Havana has been withdrawn by Mexico, but no explanation of the withdrawal was given in the dispatches. Further advices are expected during the day.

**American Forces in France.**

Paris, May 25.—American forces in France will be doubled by mid-summer, Secretary of War Baker announced, as having been sent here, and by end of 1918 there will be three times as many, said Andre Tardieu, French high commissioner in a statement to the French people on his arrival from the United States.

Secretary Baker has announced that over five hundred thousand American soldiers already have been sent to France.

**American Casualty List.**  
Washington, May 25.—Army casualty list today contained twenty-three names divided as follows: Killed in action, four; died of wounds, four; died of disease, three; wounded severely, four; wounded slightly, eight.

### 2 OKLAHOMANS AMONG MISSING

**BRITISH TROOPSHIP MOLDAVIA  
TORPEDOED. ALL OFFICERS  
SAVED.**

(By the Associated Press)

Rain and Mud on West Front.  
Weather has changed for the worse on the Somme and Picardy fronts, rain falling generally, and imposing additional difficulties on the Germans who occupy lowlands while the allies are on the higher ground. If the Germans were unprepared to attack while the weather was favorable it is unlikely that they will renew their offensive operations while rain and mud would retard their movements. The sector northwest of Toul is now covered entirely by American gunners. American insignia are seen on airplanes which are patrolling without allied aid. Strong patrol and artillery activities continue on the Italian mountain front.

London, May 25.—With the exception of fifty-three American soldiers of Company B, Fifty-eighth United States Infantry, fourth division, all persons who were aboard the British troopship Moldavia, which was torpedoed Thursday morning, were saved and have been landed at a southern British port. No officers' names appear among the list of missing and it contains the names of only two non-commissioned officers.

**War Department Gives out Names.**  
Washington, May 25.—The war department today gave out the names of fifty-three members of Company B, fifty-eighth infantry, fourth division, who are missing from torpedoed British troopship Moldavia. Private Oscar Armstrong of Bridgeport, Oklahoma, and Private Virgil C. Cook, Hobart, Oklahoma, are among the missing in the list.

**Epworth League**  
League meets in church parlors at 7:30 P. M.

The services this Sunday will be in charge of the Junior leaguers. Subject, "Doing His Will." Scripture lesson John 5:8, 16-17. The lesson will be in question form and senior leaguers are asked to help with the questions.

The contest being conducted by the two teams of the league closes in three weeks. Good work is being done and interest increases each Sunday. All young people urged to meet with us. Special invitation to normal students. We will try to make you feel welcome.

### E.C.N. ENROLLMENT UNUSUALLY LARGE

**INDICATIONS POINT TO ONE OF  
THE BEST SUMMER TERMS  
IN NORMAL'S HISTORY.**

Pe at no time in the history of the Central State Normal has been more auspicious than at the present. While the attendance is not as large as formerly, there is as earnest a body of students as ever entered a normal. The spirit of the hour—service—is written all over the new student body, and it is thought the term will be one of the best.

As we go to press the enrollment has reached nearly the 500 mark, and all incoming trains bring new students. This fact is an augury of the session, because this is the first time that the students have been asked to enroll at the end of a week—the week before the recitations begin.

All trains today have been met by a committee of citizens with cars and students have been taken to the normal without charge.

The summer faculty has been chosen carefully, with a view to the very best work possible. All are teachers of known ability and successful experience. Monday afternoon the regular faculty will entertain the new members of the summer faculty with a luncheon in the gymnasium. The inauguration of this phase of work means much to the institution and will result in the creation of good fellowship so essential to good work.

The first chapel will be held Tuesday, and an effort will be made to make each chapel period one of extreme benefit to the student body.

The outlook for the term is most promising.

### ARRESTS TO BE MADE IN AMERICA

(By the Associated Press)

Washington, May 25.—More evidence that that disclosed in the British official statement concerning connection between Irish Sinn Fein and German influences is in the hands of British and American governments, it was stated officially today. Arrests are to be made soon in this country and possibly additional arrests in Ireland.

### 82 MEN LEAVE FOR THE ARMY

**LARGE CONTINGENT OF PONTOTOC COUNTY BOYS OFF FOR CAMP BOWIE.**

On the south bound evening train over the Frisco, over 800 Pontotoc county young men will depart for Camp Bowie for military training and service with Uncle Sam. In this hour of our country's stress all should feel that the departure of so many of the very best of our youth, to defend our homes, our ideals and our freedom is a distinct pleasure. The boys go forth with the knowledge that every red blooded American in Ada and Pontotoc county is behind them—behind them in our prayers, and our purse—everything we have is at their disposal.

### Theaters

The Liberty tonight presents the "Bull's Eye" together with "Barbarous Plots" a comedy that will make you laugh and grow fat.

The Majestic was crowded with a large and appreciative audience last night the occasion being the presentation of the Big Film featuring Ambassador Gerard's "My Four Years in Germany." The film vividly treats of the insolent manner in which the Kaiser treated Gerard, and the general manner in which American ideals are opposed to Kultur.

### LYOED WADELL MAKES BIG PROFIT IN PIGS

Lloyd Waddell, a member of the Boys Pig Club of Roff, has a record of profit in the management and sale of his stock that will be hard to beat. Some months ago he purchased a Duroc-Jersey gilt for \$58. He has sold \$125 worth of pigs and has \$200 worth left. Recently he purchased another gilt paying \$100. He has followed, carefully, instructions in the care and feeding of his stock and is an enthusiastic exponent of scientific feeding.

A good crowd of citizens greeted Sergeant W. J. Bennett of the Canadian army last night at the normal auditorium. The gentleman, from an oratorical point of view, was one of the best of the army speakers sent to Ada. His address was a clear and detailed account of the work of the Red Cross, interspersed with incidents of trench life which has characterized the Canadian troops since their entrance into the war.

He made a strong plea for as large a contribution to the work of the Red Cross as was possible for the people to give, and intimated that the amount asked was far less than would be necessary for us to raise should our casualty list grow, as they are sure to do, in case our soldiers are in the coming Hun push.

The address was an effective one given by one who has seen the terrible conditions which confront our boys, and who was competent to prophesy the future.

For the convenience of the public the News is carrying on sale a supply of Thrift Stamps and War Savings Certificates.

## COMMENCEMENT HIGH SCHOOL

TWENTY-SEVEN STUDENTS RECEIVE SCHOOL DIPLOMAS. 19 GIRLS, 8 BOYS.

The annual graduating exercises of the high school was held Friday evening in the M. E. church. A good crowd witnessed the ceremonies.

Prof. A. C. Parsons, state high school inspector, delivered the annual address. The speaker discussed the conditions that confront the schools owing to war conditions and advised every student that their first duty to their country in this hour of trial was to continue their school work and to prepare for the future. In choosing their life work his advice was to continue in the line of duty chosen and become an expert therein. The address was a splendid presentation of ideal school work and was well received by those who heard him.

The two numbers rendered by the high school glee club were unusually fine, reflecting great credit on the members of the club. The violin solo by Miss Elizabeth Cain was rendered most efficiently, firmly establishing that young lady's high reputation as a violinist.

The Judge Busby medal was presented to Miss Sarah Tunnell. The Ada News Cup was won by the B. K. W. who received 30 points out of a possible 100. The grade represents work for the entire year.

Two certificates were presented showing proficiency in typewriting and were won by Miss Lillian Faust and Miss Pearl Hinchey.

In class honors Miss Josephine Conger won first, while second, third and fourth places were won by Miss Evans, Roy McKeown and Bessie Needham respectively.

One of the new features of the present year's work was a contest inaugurated for the development of four minute speakers, and the results far exceeded expectation. The winners were: Miss Jane Derrick, first; Miss Lee McAlister, second; Miss Sarah Tunnell, third.

A service flag containing 36 stars, indicating that number of young men had gone out from the high school in answer to the call of their country was unfurled. Two of the stars represented members of the present class and their chairs were vacant. The two members of the class in service are Bernard Howard and Gilbert Montgomery.

Supt. Hickman presented the class in a few well chosen words to President Walters of the board who presented each with the school diploma.

The school authorities feel under obligations to Misses Mentzer, Curry and Cain and Messrs. Morris and Cummings for their assistance during commencement.

The following is a list of the graduating class:

Hazel Allen, Clare Bowen, Edward Brents, Pearl Buster, Lucile Conger, Viola Denham, Jane Derrick, Lillian Faust, Gladys Garner, Calloway Harbert, Opal Hinchey, Pearl Hinchey, Zuma Horton, Savannah Keithley, Beatrice Kight, Lester King, Mattie Lucas, Lee McAlister, Albert Milsaps, Gilbert Montgomery, Bessie Neely, Walter Oliver, Gladys Rawls, Carrie Roach, Horace Scott, Ruby West, Byron Williams.

## KEPT HER AWAKE

The Terrible Pains in Back and Sides. Cardui Gave Relief.

Marksville, La.—Mrs. Alice Johnson, of this place, writes: "For one year I suffered with an awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful.

I could not do anything, not even sleep at night. It kept me awake most of the night... I took different medicines, but nothing did me any good or relieve me until I took Cardui...

I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped down I was not able to straighten up again... I decided I would try Cardui... By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone.

I shall always praise Cardui. I continued taking it until I was strong and well." If you suffer from pains due to female complaints, Cardui may be just what you need. Thousands of women who once suffered in this way now praise Cardui for their present good health. Give it a trial.

## CLEAN SHOWS HAVE NOTHING TO FEAR FROM ADMINISTRATION

National Council of Defense Will Aid Rather than Hinder

All Worthy, Wholesome and Meritorious Attractions

But Short Shift Will Be Accorded the Other Kind

Washington, May 20.—The Council of National Defense, in connection with a movement which it is formally inaugurating looking to conservation along all necessary lines has gone on record officially as favoring the continuation of theaters, motion picture shows and other forms of proper amusement as one of the essentials of wartime.

During a discussion of this subject with high officers of the National defense Council this subject was brought up specifically, and the suggestion made by an inquirer that curtailment of other industries might mean also curtailment of places of amusement.

This suggestion was met with the statement that this matter had been considered, and decision reached in favor of continuing public amusements for their psychological effect on the people. The gradual lengthening of casualty lists, as the war proceeds, together with other hardships resulting from the war, is certain to sober the people of this country unduly and, if not counteracted in part by bringing about a frame of mind of a most depressing character. To add to this inability to believe ones feelings occasionally by attendance upon a show of some kind would soon put the people in a frame of mind where they would be unable to properly cope with the situations constantly arising, it was said.

It was further suggested that in England it was learned by experience that it was best to give the public an opportunity to enjoy entertainments, especially those of a lighter vein, from time to time, that the morale of the country might be sustained.

The National Defense Council merely specifies that shows must be clean and honestly conducted. Members aver that this will be rigidly insisted upon, but also assure showmen that this is the only condition they have to meet.

Theatrical performers were excepted from the regulations at the direction of Secretary of War Baker, who is said to feel that the people can not do without all amusements in war time and that other amusements could be dispensed with more readily.—(Adv.)

## CLOSER COMMERCIAL RELATIONS WITH JAPAN

(By the Associated Press)

Tokio, May 25.—The appointment of a special business commissioner to the United States for the purpose of promoting closer economic relations between Japan and America has been recommended by the Tokio Chamber of Commerce.

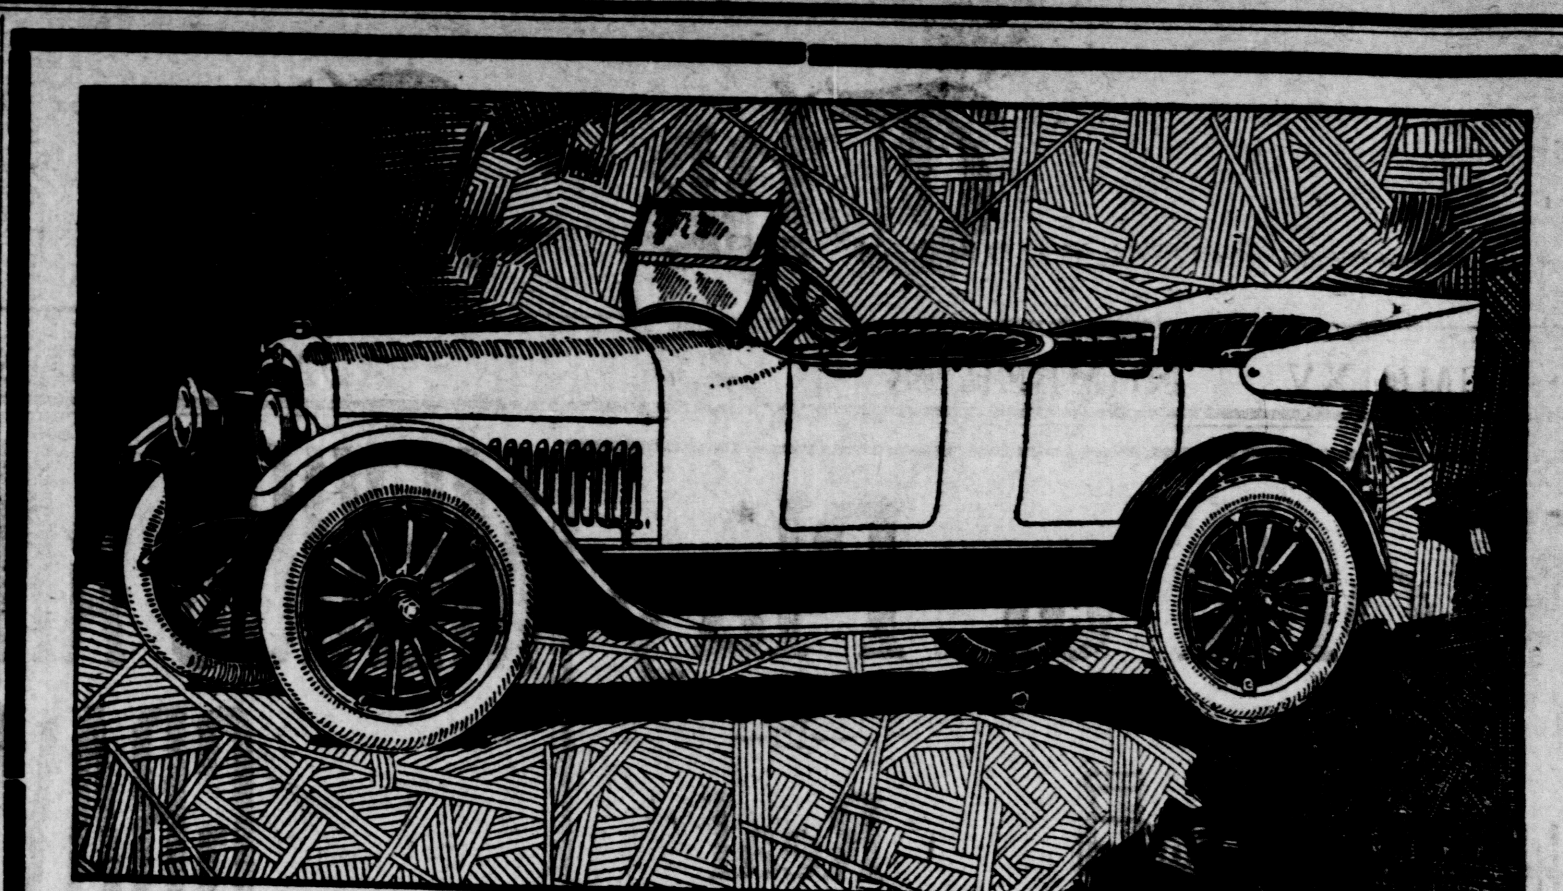

It is understood that the Japanese merchants in the United States and the business men interested in Japanese trade are anxious to have an effective medium for cementing closer relations. The idea of appointing a business commissioner, who would represent Japanese business interests, is the outcome of the recent visit of the Japanese financial commission headed by Baron Meguro.

A plan to establish a Japanese Chamber of Commerce in the United States and to organize an American-Japanese Bank is also being studied here.

## ACUTE HEARING OF CHINESE AID SOLDIERS

(By the Associated Press)

London, May 25.—Officers home from the front testify to the acute hearing powers displayed by the Indian and Chinese coolie laborers with the troops in France. These Eastern auxiliaries are ever the first to detect the nearness of a hostile airplane and to fall prone as a measure of self-protection. In this way they give a valuable lead to the British and French soldiers, who are comparatively slow in detecting the difference in sound between the rival air machines.

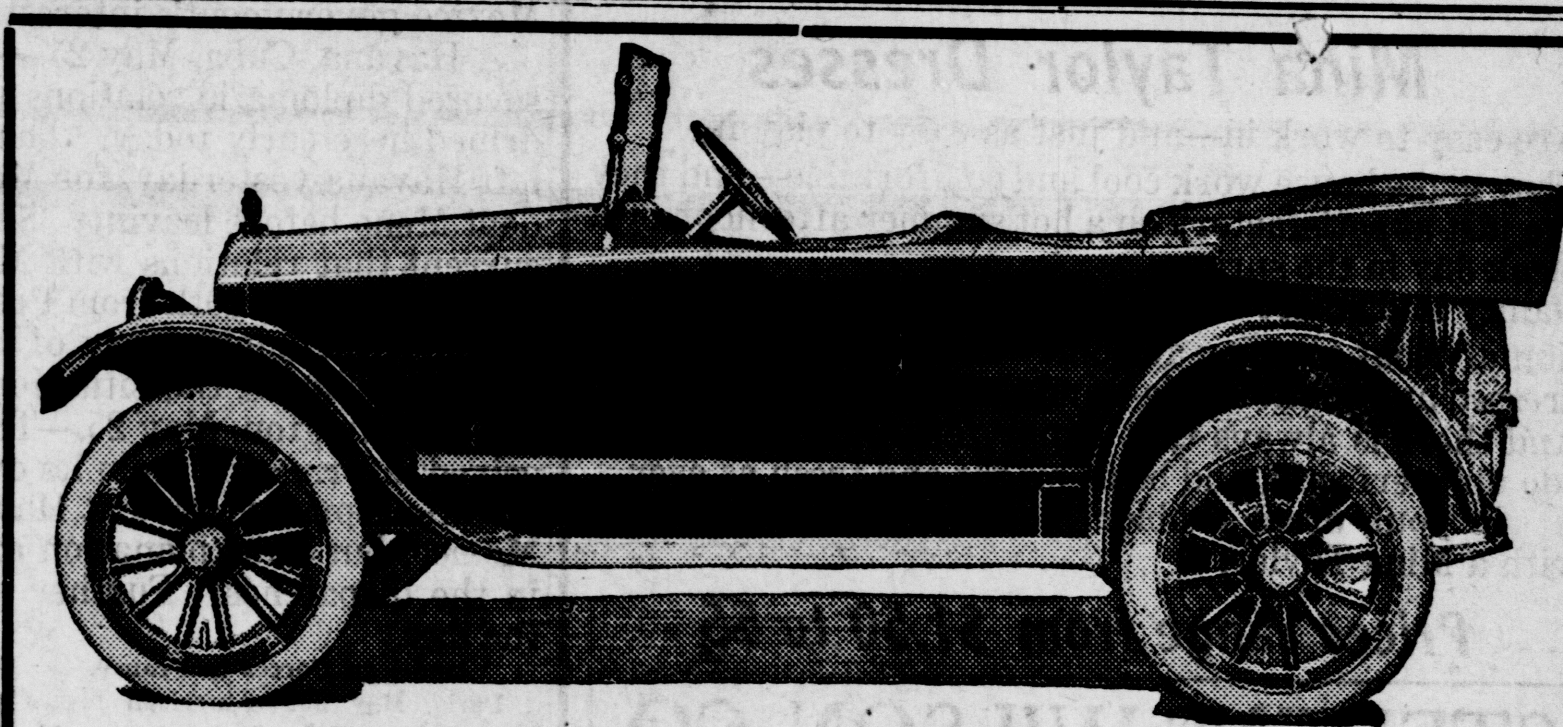

We are pleased to announce that the Studebaker Corporation advises we will be able to make deliveries on a few Little Sixes within the next few days, sample of which is now on display at our sales room.

We are enlarging our place, and will be able to render better service than ever to Studebaker owners as soon as carpenters have completed the work.

## CLOSER RELATIONS BETWEEN ARGENTINA AND CHILE

(By the Associated Press)

Buenos Aires, April 12.—The people of Argentina and Chile appear to have been drawn much closer together than they were as a result of Argentina's action in sending a special embassy to Chile, under the leadership of the Minister of Foreign Affairs, to take part in Chile's celebration of the centennial of the Battle of Maipu, in which the Argentine army helped Chile to so effectively defeat the Spaniards that the independence of Chile was assured.

Dr. Pueyrredon, the Minister of Foreign Affairs, has just returned from his mission to Chile and is enthusiastic over the reception accorded the Argentines and especially so over the interest which Chilean authorities have taken in proposals for bringing the two countries closer together sympathetically by means of closer commercial relations and by the interchange of university professors and students.

Just as he was leaving Chile, Dr. Pueyrredon told Chilean newspaper men that he had been greatly pleased to find that there existed in Chile a friendly attitude toward the Argentine proposition that commercial interchange be arranged according to zones, so that northern, central and southern Argentina might trade directly with northern, central and southern Chile, without hampering trade by the present customs regulations which confined it to the regular trade routes. Such a commercial arrangement, he said, would be of inestimable value to both countries.

He also said that upon his return to Buenos Aires he would begin work with the view of establishing currents of intellectual relations between the two countries by the exchange of professors and students.

"The people of the two countries," he said, "understand each other. It remains for statesmen to find a way of bringing them closer together."

There are no indications that any effort is being made by Argentina looking to a closer political union with Chile than already exists, although dispatches from the United States indicate that such an impression has gained footing there, probably as a result of undue importance being given to the statements of Dr. Pueyrredon, who spoke only of a closer understanding between the people and carefully avoided all reference to the governments.

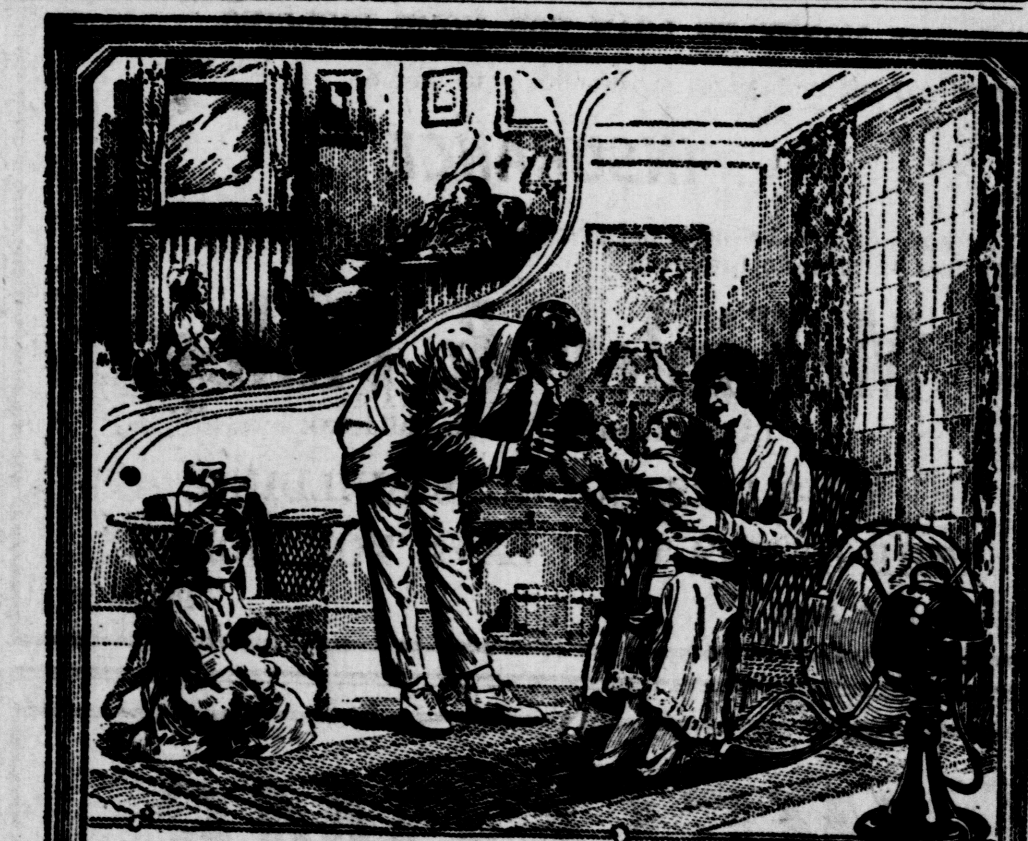

Argentina is the "big brother" whose friendship and support is being constantly sought by both Brazil and Chile; for either of them, with the assistance of Argentina could control South America. Without Argentina's support it is believed almost any combination of republics would fail.

Brazil pretends to see political significance in the sending of a special

embassy to the celebration. It is true that President Irigoyen has made a steady and determined effort to bring about a union of the Spanish speaking South American republics ever since he has been in power, but he has met with little success and even those who charged him with attempting secret unions with Chile and Bolivia a few months ago, agree that in the present instance, the only union that is hoped for from Chile is a closer commercial union and a better understanding and closer sympathy between the people of the two republics.

## A FIRELESS COOKER IS UNNECESSARY

The Regulator wheel is marked in degrees and the ordinary terms of baking; any child can understand it.

By a slight turn of the wheel you obtain any oven heat you desire—cuts out the guess work.

By setting the wheel at "very slow" you can obtain better results than with the best fireless cooker. You can cook a whole meal at one time in the oven without watching.

"The conservation of Our Food Supply is absolutely essential"—why not help in this patriotic work by equipping your kitchen with a **Direct Action Gas Range** with "Lorain" Oven Heat Regulator that

- Conserves your food
- Conserves your gas
- Conserves your time
- Conserves your labor

## THE OVEN HEAT REGULATOR

CONSERVES YOUR FOOD for you never spoil any bakings composed of high priced materials because of faulty oven regulation. The Regulator enables you to select any oven temperature you desire and will maintain that temperature for an indefinite period. You always obtain perfect results—no more lucky or unlucky days.

CONSERVES YOUR GAS by enabling you to obtain the exact temperature you desire each time you bake. You do not over heat the oven and thus waste gas. The tendency of all cooks is to use too much gas. This is because of lack of a simple and accurate device with which to measure the oven heat.

CONSERVES YOUR TIME because it eliminates all "not watching." Knowing that your oven temperature MUST BE RIGHT, you can go about your other work as you do not have to stop and watch the baking.

CONSERVES YOUR LABOR because the Regulator enables you to cook a whole meal, including roast, vegetables and dessert, at one time in the oven while you enjoy the afternoons off. You can prepare the entire meal in forty-five minutes, then allow the Regulator to cook the meal for hours while you are away, knowing that it will produce delicious results with the toughest meat tender it can be served with a spoon.

Call at our store and see the Regulator demonstrated and receive a booklet describing how to cook eight different menus while you spend your new found afternoons of liberty at the Red Cross.

There is always a cordial invitation to attend the services of this church; there's a comfortable pew and a hearty welcome for you. Strangers in the city are invited to make this their church home while here. The pastor is at the service of any who may need him at any time. Normal students will find this a congenial place to worship while in the city, and will be heartily welcomed.—George Wesley Beck, Minister. Residence '07 E. 14th. Telephone 232.

When an energetic hard-working man feels under a half-sick, "blue" and discouraged he thinks he is getting lazy. It isn't laziness, the trouble is in the stomach and bowels; they are disordered. To restore energy, vim and activity the right remedy is Prickly Ash Bitters. It is a powerful system regulator. Price \$1.25 per bottle.—Gwin & Mays Drug Co., Special Agents.

**"A Real Treat."**  
Monday night will be the first opportunity the citizens of Ada will have to see the Lester Lindsey Theatre Company. This company is a stranger to us, but comes highly recommended by the Press Manager. Lindsey conducts his show in a first class way. He tolerates no smoking or loud, boisterous noises under his tent. He appeals to ladies, gentlemen and children and if you can't conduct yourself as such he does not want your patronage. The large tent will be erected on the campus lot, the only available place in the city. The tent is comfortably arranged so any one can see and hear from any part of it. The plays are all high class metropolitan productions. Every one is elegantly mounted and given a finished production. The coterie of actresses and actors are the cream of the pick of popular priced players. The vaudeville presented between the acts is clean and moral. Monday night they open their engagement in Hal Reed's comedy-drama in 4 acts "The Convict's Secret." It is a good story, well told and never fails to please. Come out Monday night and if you are not perfectly satisfied they will refund your money.

## FARMERS REQUESTED TO APPLY FOR HELP

All farmers who will need aid in cultivating their crops and who wish to employ farm labor, are earnestly requested to at once take the matter up with the chairman of the labor bureau, who can be found in the rear of the First National bank, or with the chairman of their local district council of defense. If the farmers co-operate in this matter it is believed that sufficient help can be secured to harvest all crops, and do all farm work necessary.

Importance of Correctly Fitting Glasses

Even though your lenses are ground exactly to prescription, they cannot be expected to give you the degree of relief you have a right to expect unless they are placed in just the right position before your eyes.

Neither can you wear an eyeglass or spectacle mounting comfortably unless it has been specially adjusted to your individual features.

This matter of correct fitting is one of our hobbies—~~is~~ the reason we have so few complaints from wearers of our glasses.

## DANCE IN HONOR OF OUR BOYS

The carnival and dance, given by Messrs. and Mrs. Schreiber last evening, in honor of the boys who are leaving for the training camps, was one of the most delightful affairs of the season.

The room was tastefully decorated in the national colors. A large flag draped the entrance, while another

hung from the railing surrounding the ball room. Small flags and ribbons of various colors made the place a veritable bower of beauty.

The guests were provided with red, white and blue paper caps, whistles, horns, rattles, and every imaginable kind of noise maker. As the din of these mingled with the music of the orchestra, and the laughter of the dancers, the place became a riot of joyful sound that assured one that the event was to be a grand success.

Confetti was showered on the dancers as they wound in the mazes of the dance, while a spotlight threw changing colors on the scene, transforming it from the brightness of electricity to the pink of dawn, or the gold of moonlight.

RED CROSS NOTES. Ladies, do you read the papers? Do you notice that our casualty list grows larger each day? This means that we MUST increase our output.

Think of ninety thousand men going over the first ten days of May to fight for YOU. Don't you think you have a yellow streak if you don't give at least one-half day a week at the work rooms?

I love a nicely kept house, but it ceases to be a virtue at a time like this, if it requires all of your time. I know some of you did when you went to parties or to the Ladies aid. It is absolutely appalling to see how few women have carried this burden from the beginning.

The Elks have realized the importance of enlarging headquarters and tendered us the use of the entire front of the building, which is certainly very generous and much appreciated. I feel sure we have the most pleasant work rooms of any chapter in Oklahoma.

Mr. T. O. Cullins presented the Daily Oklahoman to the ladies at Red Cross headquarters, so you can get the news early.

Mrs. Jackson's recent netted \$42.30, and was very much enjoyed by those who attended.

## We Do More Than Simply Sell You Shoes

WE really try to study your feet—to give you the very best shoes for your own particular needs.

And each year we become more and more convinced that the very best shoes for summer-wear are Keds—the perfected rubber-soled canvas shoes that are so acceptable for work, and dress and play.

We have many styles of Keds for all members of the family and they are not at all expensive.

## TO THE CITIZENS OF ADA

A. C. Young, for several years connected with the Lee Huckins Hotel of Oklahoma City, on June 1, 1918, will assume the management of the New Harris Hotel of your city.

A Good Hotel is a City's most valuable asset and I want to ask the co-operation of the people of Ada to assist me in maintaining the popularity of this First Class Hostelry.

The Service and Quality of our Cafe will be second to none, and I hope to meet not only the traveling public but the citizens of Ada there.

## GOODRICH TESTED TIRES

HERE's a lot of geography in the wear of tires. Some wear well in one region, and wear out in another. Climate, peculiar roads and road conditions are the cause of it. Therefore, good service in a single region is not enough proof of tires that must undergo nationwide use. Least of all could it measure tires up to the TESTED standard, Goodrich demands of tires.

With a command to find out what Goodrich Tires do on the roads of every section of our country, and what the roads of every section do to Goodrich Tires, Goodrich sent its famous Six Fleets of over forty cars, light and heavy, the length and breadth of our nation to an aggregate mileage of 1,044,686 linear miles, and 4,178,744 tire miles.

The Pacific Fleet contributed 166,960 miles on

desert paths and coast highways; the Mountain Fleet 55,796 through the Rocky Mountains; The Dixie Fleet 3,285,860 in the South and North Midland; the Prairie Fleet 198,744 on the Great Plains; The Lake Fleet 217,372; and The Atlantic Fleet 254,012 on a grand tour of many tours ranging from Virginia, through New England, and back to the City of Goodrich.

Throughout this road roughing, SILVERTOWN CORDS, and BLACK SAFETY TREADS, proved themselves the tires of durability and dependability wherever you go in our broad land. They verified all the good qualities of Goodrich Tires, and revealed many new virtues.

Get the economy, the comfort and certainty of such proven service by demanding the tires proved out in 4,178,744 miles over American roads—"America's Tested Tires."
